Placement Advice

APPLICANTS NAME:

HOST'S NAME:

Francis Delaney

ADDRESS:

County Meath

PHONE:

MOBILE:

E-MAIL

Placement details:

Fran, his wife Rosie and their three children, Katie who was 11 in February, Conal who is 8 and Aaron who is 6 years old, have a dairy farm in County Meath which is one of the counties adjacent to Dublin. Slane is a beautiful village on the Boyne river and is best known for the large concerts held at 'Slane Castle' every year. Bands such as The Rolling Stones, U2, Bruce Springsteen and Madonna have played there. It has beautiful rolling countryside and is a village steeped in history,

You will be involved in all areas of the farm and you will be expected to help with:

- Milking and cleaning the parlour
- Feeding all the cattle and looking after any calves
- Maintenance of fencing and buildings
- Driving tractors and possibly other machines

There are 180 dairy cows and a very modern milking parlour on 180 acres of land. The family also own a horse, and Fran has been known to try hunting occasionally during the winter. You will find this family very welcoming and you will be made to feel at home. As this will be your home for several months, please treat it with respect and Fran will have no trouble teaching you everything you need to know about working on a dairy farm.

You will learn a lot from this Irish farmer and the farm is ideally located if you wish to explore other areas of Ireland during your stay. If you are interested in farming, life in the countryside and learning about the Irish culture, this will be a very good placement for you.

Accommodation will be either in the family home or Fran's parents house which is also on the farm land. You will receive all your meals, a €100 per week pocket money and work six days with one full day off each week.. There is an Au Pair here helping to look after the children.

Duration of the placement:

20 June until 26 September 2011
